Helping train over 2.8 million people in
Microsoft technologies over the last decade

Official Microsoft® training at a price you can afford

Microsoft Online Learning is a cost-effective training platform written and developed by the Microsoft product team. This unique on-the-spot training is ideal for addressing skill gaps and significantly reducing training times.

Over 800 courses are available:

- In up to 15 different languages
- Covering desktop, IT professional and developer technologies

Key Benefits

Microsoft Online Learning courses combine the benefits of classroom training and books. They are interactive, hands-on and easily monitored like classroom training. They are also low-cost, self-paced and can be used at home or at work, anytime and anywhere, just like traditional books. All you need is a computer with online access.

Great value - with no hidden costs

Microsoft Online Learning offers great value with no hidden costs. In direct comparison with classroom training, the online courses can reduce IT training costs significantly (see Figure 1). Courses can be taken at anytime and anywhere on a computer with online access. This reduces time lost out of the office and associated travel and hotel expenses.

Saving Comparison

Course	Microsoft Online Learning	Instructor-Led Training (ILT)	Percentage Saving
